# STATISTICAL REPORT

## of Seventh-day Adventist Conferences, Missions, and Institutions Year Ending December 31, 1944. The Eighty-Second Annual Report

Up to the end of 1944, transportation and communication facilities with several General Conference divisions were practically non-existent. It has been impossible, therefore, to gather current information from these areas regarding the standing of Seventh-day Adventist organizations, or the progress of their work. That there has been growth in some sections is assured; but with no substantiating evidence, it has been necessary again to repeat the previous statistical data to arrive at reasonable summaries for the world field. While recognizing that such a practice detracts from the accuracy of this report, it does give a general picture which is valuable for comparative purposes.

Reliable current statistical reports have been secured from North, South and Inter-America, South and parts of West Africa, the Middle East, Great Britain, and Southern Asia. Most of the other reports are fragmentary or are repetitions of previous figures. These repetitions have generally been indicated in the section where the report appears.

The tabulation below lists for the several division fields the latest available Seventh-day Adventist church memberships. Tabulations following give annual reported increases in world membership, number of organizations, churches, etc.

### LABORERS

In the notation of the several classes of workers which follows, an endeavor has been made to eliminate duplications between evangelistic and institutional laborers, although some of the latter group have been given credentials and licenses by the conferences and missions.

A summary of the different classes of workers in the North American territory and in the world field is given below:

COMMENTS ON THE CHART: The widths of the three bands across the chart—the lower clear band marked “Foreign Mission Offerings,” and the shaded areas designated “Local and Home Offerings,” and “Tithe,” respectively—show the relative annual average amounts for each church member of these three groups of contributions year by year in the North American field. The irregular line above the “Tithe” section indicates the total of per capita tithe and all offerings each year.

For example: In 1914 each average member paid \$8.55 to foreign missions, \$6.15 local and home offerings and \$17.63 tithe, making the total of all contributions in 1914, \$32.33. From 1920 to 1930 the per capita mission offerings alone stood well over \$20 for each church member; and only in 1944 did the mission giving rise to the average for this eleven year period. Local and home offerings and tithe show a gradual widening of their bands since the sharp decline in the early 1930's. During recent years from 1941 to 1944; all funds have expanded materially until the total of tithe and offerings average for each Seventh-day Adventist church member in 1944 was \$109.29.

This chart represents annual per capita tithe and offerings in the North American field only.

The tabulation following gives the average per capita amounts of offerings and tithe used in making up this chart:

| Year | Foreign Offerings Per Capita | Home & Local Off. Per Capita | Tithe Per Capita | Total Tithe & Offerings Per Capita | Year | Foreign Offerings Per Capita | Home & Local Off. Per Capita | Tithe Per Capita | Total Tithe & Offerings Per Capita |
